Application
LKB is a sanitary automatic or manually operated butterfly valve for use in stainless steel fluid handling systems.

Working principle
LKB is either remote-controlled by means of an actuator or manually operated by means of a handle. The actuator is made in three standard versions, normally-closed (NC), normally-open (NO) and air/air-activated (A/A).

The actuator is designed so that an axial movement of a piston is transformed into a 90° rotation of a shaft. The torque of the actuator is increased when the valve disc contacts the seal ring of the butterfly valve.

A variety of handle options for manual operation mechanically secures the valve in its open, closed, or intermediate positions.

Standard design
The valve consists of two valve body halves, valve disc, bushings for the disc stem and seal ring. The valve is assembled by means of screws and nuts.

Two actuator sizes, ø 85 mm (3.35") and ø 133 mm (5.24"), cover all valve sizes.

The actuator is fitted onto the valve by means of a bracket and screws.

The handle for manual operation is fitted onto the valve by means of a cap/block system and a screw.

The LKB is available with either welded ends or Tri-Clamp® sanitary connections.

Control Equipment
Control and indication is possible in connection with the remote-controlled LKB valve, including the ThinkTop®. See “Options”.

### Connections

**Compressed air**

R1/8" (BSP), internal thread.

(Quick connect fittings for ¼" tubing provided as standard)
Technical Data

Valve:
Max. product pressure: .................................. 145 PSI (10 bar)
Min. product pressure: .................................. Full vacuum.
Temperature range: ...................................... 15 °F to 200 °F

Actuator:
Max. air pressure: ........................................ 100 PSI (7 bar)
Min. air pressure, NC and N0: ............................. 60 PSI (4 bar)
Temperature range: ...................................... 15 °F to 195 °F
Air consumption (litres free air) - ø85 mm: .............. .24 x p (bar)
Air consumption (litres free air) - ø133 mm: .............. .95 x p (bar)

Weight:
ø85 mm ........................................... 6.6 lbs
ø133 mm ........................................... 26.4 lbs

Materials

Valve:
Product wetted steel parts: ................................ 304 stainless steel or 316L stainless steel
Valve Disc ........................................... 316L stainless steel
Other steel parts: ...................................... 304 stainless steel
Rubber grades: ........................................ Silicone rubber (CR), EPDM, Fluorinated rubber (FPM), FFa (bonded over EPDM), or HNBR
Bushes for valve disc: .................................. PVDF
Finish OD ........................................... Machined finish
Finish ID
Sanitary .............................................. ≤ 32 microinches Ra
Industrial ............................................. (not polished)

Actuator:
Actuator body: ........................................ 304 stainless steel
Pistons .................................................. Light alloy (for ø85 mm: Bronze), Air/air version (Bronze)
Seals .................................................. Nitrile (NBR)
Options
A. Tri-Clamp® or butt weld ends standard
   - other connections available upon request
B. ThinkTop® for control and indication
C. Green Top - position indication MS or PS
D. Indication unit with micro switches
E. Indication unit with inductive proximity switches
F. Handle with two or four positions (standard on 3"
G. Handle for electrical position indication
H. Handle with infinite intermediate positions (not for 3"
I. Multi-positioning handle with lever handle or pull knob
J. Service tool for actuator
K. Service tool for fitting 1"-1.5" valve discs

LKB Handle Options

Fig. 8. LKB lockable multi-position handle

Ordering
Please state the following when ordering:
- Valve size
- Connections
- Materials: AISI 304 or AISI 316L
- Rubber grade: EPDM, Silicone (S), Fluorinated rubber (FPM) or HNBR, PTFE (PTFE coated EPDM (1½" or larger) or N.A. in 1" size
- Type of handle, if required

If ordering with actuator:
- Type: LKLA or LKLA-T
- Size: ø 85 mm (3.35") or ø 133 mm (5.24")
- Function: NC, NO or Air/Air
- Valve control options
The information contained herein is correct at the time of issue, but may be subject to change without prior notice.
