

FOR IMMEDIATE RELEASE

New Sanitary Pump Solution Center in Fresno, CA

Springfield, Missouri – December 24, 2019 – Central States Industrial Equipment and Service, Inc. (CSI) will dedicate half of their 10,000 square foot distribution facility in Fresno, California, to a new Pump Solution Center for expedited services to customers in the Western U.S. beginning January 2, 2020. Phase one of the CSI Pump Solution Center launch gives customers faster access to a large inventory of pumps, motors, and impeller trimming services.

“We’re excited to announce the addition of a new Pump Solution Center at our Fresno location that has been serving customers since 2006,” said Director of Business Development, Matthew McColgin. “The strength of our centrifugal pump selection and impeller trimming service – and our expansive motor inventory, has already garnered excitement from customers that visited the warehouse.”

CSI is a leading OEM certified pump supplier and service center for the processed foods, pharmaceutical, biotech, and chemical industries. Now customers west of the Rockies – Idaho, Utah, Arizona, and California can take advantage of one-day shipping service for a complete line of sanitary from Alfa Laval, Ampco, Wilden, Almatec, Mouvex, SPX/APV, Waukesha, Fristam, ITT Bornemann, and Wilden. Unlike most distribution centers, the CSI Pump Solution Center includes facilities for impeller trimming to ensure customers can meet specific pressure and flow rates for their applications.

The CSI Springfield location provides dedicated pump applications and customer-service teams to support the Fresno location. In addition, customers can now place orders for delivery or ‘Will Call’ options designed to meet customer demand for speed and convenience. To take advantage of Pump Solution Center services, call the CSI customer service line at 417-831-1411 today.

ABOUT CSI: Central States Industrial Equipment (CSI) is a preferred source for hygienic pipe, valves, fittings, pumps, heat exchangers, and MRO supplies for industrial processors. With four distribution facilities across the US, CSI provides fast and reliable fulfillment for industrial parts and equipment needs. CSI also provides detail design and execution for hygienic process systems in the food, dairy, beverage, pharmaceutical, biotechnology, and personal care industries. Specializing in process piping, system start-ups, and cleaning systems, CSI leverages technology, intellectual property, and industry expertise to deliver solutions to processing problems.
